

# Viadex Cloud Economics

Creating, adding, and optimising enterprise value, through informed technology choices

## Optimise your investment in Viadex Cloud Economics

Viadex Cloud Economics is a service that provides organisations with the visibility and expertise to effectively manage cloud spend, drive cost savings, and ensure constant optimisation of your cloud deployments.

Powered by our cloud experts, we use leading business intelligence technology to deliver:

- In-depth analysis of cloud usage to recommend cost optimisation opportunities
- Sustainable cloud governance and higher compliance
- Risk reduction and lower IT expenses
- Budget predictability and improvement in overall performance

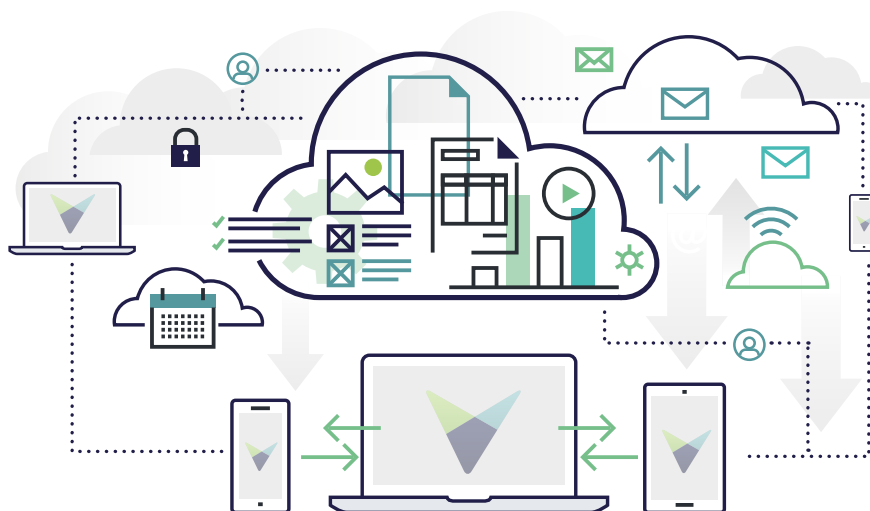

Public cloud spending will reach **\$500** billion in 2023.

**46%** of IT leaders say that controlling cloud costs is a primary challenge.

On average, **42%** is overspent on cloud, resulting from poor cost optimisation.

## Viadex Cloud Economics

### Visibility into cost drivers

- Access to Viadex's Cloud Cost Control Platform
- Spend analysis, trends & anomalies
- Forecast future spend
- Show back and charge back opportunities
- Benchmark efficiency

### Optimise cloud spend

- Ongoing optimisation in areas such as unused resource, reserving capacity, right-sizing & Azure Hybrid Benefit
- Governance recommendations
- Review and application of available discounts and incentives

### Cloud strategy alignment

- Alignment of optimisation recommendations to future strategy
- Review of cloud modernisation & innovation
- Cloud architect technical review

## Viadex's Cloud Cost Control Platform

Our Cloud Cost Control Platform presents a consolidated view of your cloud spend through tailored dashboards, which clearly demonstrate how effectively your organisation is consuming and adopting cloud services.

Actionable insights empower you to, not only make better spending decisions at the top, but allocate cloud costs across teams and functions at all levels to instil accountability throughout your organisation.

*Viadex Cloud Economics typically saves our customers 30% on their cloud spend.*

## Maximise your cloud

Whether a high-level view of your cloud commitments, or a full study with in-depth analysis, Viadex can help.

Book an assessment with one of our Cloud Economics experts today.
